NATIONAL ORIGINS REPRESENTED BY  
PROSPECT PARK RESIDENTS AS OF 2022

**Message from  
Mayor Mohamed T. Khairullah  
Greetings Prospect Park Residents & Businesses,**

With the continuous support of the esteemed Borough Council, dedicated municipal staff, and ever-dependable community volunteers, the Borough of Prospect Park was able to continue to grow and flourish over the past year. As we embark on a new year, we are excited about what is coming ahead. The new state-of-the-art and handicap-accessible playground in Hofstra Park and the new public parking on North 8th Street are some of the upcoming projects that should enhance your experience of being a resident in Prospect Park. While making enhancements, the governing body and I are always mindful of the need to be fiscally responsible without missing opportunities to improve our community. With the millions in federal grant money, we will be commencing our main-sewer line replacement program while improving existing ones. Most importantly, we will also keep the safety and health of the community as objective Number One with the increase of the number of police officers on patrol.

The powerful bond between the government and the people fuels the strength of our community. We strive to make information as accessible and straightforward as possible to ensure clear communication between us and our constituents. We are proud to say that Prospect Park is the first municipality in New Jersey to utilize artificial intelligence (AI) for municipal services. Our new AI-powered interactive search feature allows residents to ask questions in natural language and receive responses with information about the Borough, translated into human-readable responses. This initiative highlights our commitment to embracing forward-thinking technologies that streamline engagement between residents and their local government.

As your elected representatives, not only do we attentively address the current issues our community faces, but we also aim to secure the prosperity of our community for generations to come. In our efforts to align ourselves with The State's Energy Master Plan, the roadmap to reaching Governor Murphy's goal of 100 percent clean energy by 2035, we became the first municipality to adopt a Community Energy Plan through the NJ Board of Public Utility's grant program. We identified more than two dozen initiatives that Prospect Park will implement within five years. The project aims to improve Prospect Park and New Jersey as a whole by making it cleaner and safer for our residents.

As your Mayor, I will forever remain committed to working with our Municipal Council to further our efforts to improve our community and, by all accounts, ensure that our Borough

continues to promote a safe, inclusive, responsive, and family-friendly atmosphere that we all have come to love and enjoy. As we anticipate many new and exciting projects, the Governing Body and I will continue to work tirelessly to ensure our community is the highest priority in every decision executed and action taken. I am also very committed to working with our residents and businesses, as I believe that collaborating with the community propagates a wealth of ideas and perspectives, which is a vital aspect of improving the municipality. I encourage you to get involved, volunteer, and provide us with your feedback, as your engagement is always appreciated. Please do not hesitate to reach out to me or any member of the Governing Body if we can be of any assistance to you.

I encourage you all to look into our newest Parks & Recreation Online portal which provides the many resources the department offers, including various seasonal activities and programs for you to enjoy. Please take advantage of the numerous resources provided to clarify any inquiry you may have, such as our aforementioned "Ask AI" search feature. If you have not already, please sign up for our town app, "MyProspectPark," to report issues and access Borough information at the palm of your hands. Please do not forget to stay informed with all Borough updates by registering for our CodeRED community and emergency notification system and by following our official Prospect Park, NJ Facebook page.

As I look forward to this new year, it is my hope for all of you that 2024 is ultimately filled with good health, opportunities, and joy. I also pray that we continue to hold hands, lift one another up, and stay united in moving Prospect Park forward.

*Sincerely,*  
*M. T. Khairullah*

# pet waste **POLLUTES** our waters

## What You Can Do To Help Protect Our Water

Clean and plentiful water is important to our families, our environment, our economy and our quality of life. Did you know that animal waste from pets can pollute our waters? When left on the ground, pet waste is washed by rain and melting snow and ice into storm drains that carry it to our rivers, lakes, the ocean and drinking water.

Animal waste contains a high concentration of nutrients as well as bacteria and disease-causing microorganisms that can cause problems.

## What YOU can do

Pet Owners or anyone who takes your pet for walks must properly dispose of the waste by picking it up, wrapping it and either placing it in the trash or flushing it unwrapped down the toilet.

Your municipality is required to adopt and enforce local pet-waste laws. At a minimum, your community must require that pet owners or their keepers immediately and properly dispose of their pet's solid waste deposited on any public or private property not owned or possessed by that person. People with assistance animals such as Seeing Eye dogs are exempt.

Make sure you know what your municipality requires - and follow it. Thank you for doing your part to keep New Jersey's waters clean.

# solutions to **STORMWATER POLLUTION**

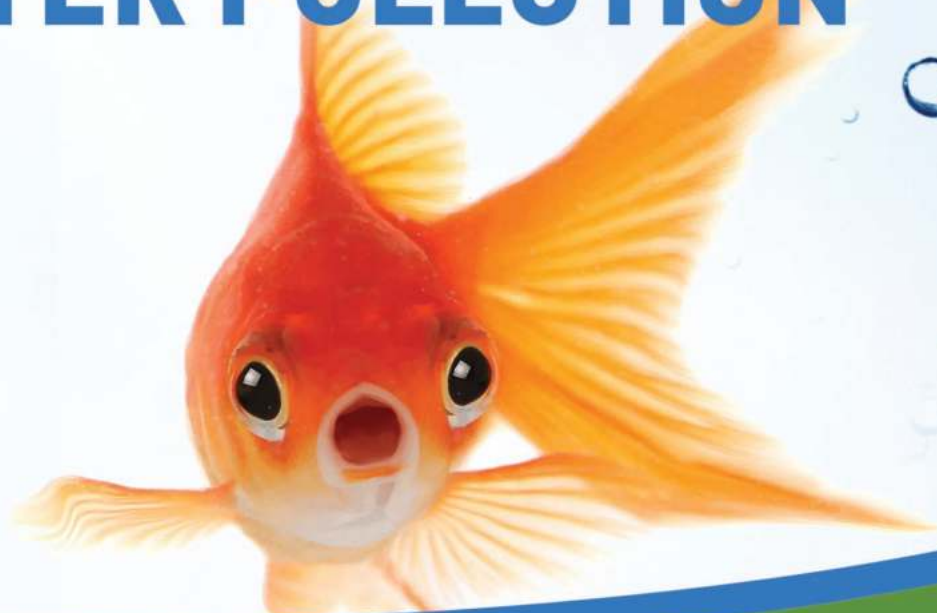

## A Guide To Healthier Habits for Cleaner Water

Pollution on streets, parking lots and lawns is washed by rain into storm drains, then directly to our drinking water supplies and the ocean and lakes our children play in. Fertilizer, oil, pesticides, detergents, pet waste, grass clippings: You name it and it ends up in our water.

Stormwater pollution is one of New Jersey's greatest threats to clean and plentiful water, and that's why we're all doing something about it.

By sharing the responsibility and making small, easy changes in our daily lives, we can keep common pollutants out of stormwater. It all adds up to cleaner water, and it saves the high cost of cleaning up once it's dirty.

As part of New Jersey's initiative to keep our water clean and plentiful and to meet federal requirements, many municipalities and other public agencies including colleges and military bases must adopt ordinances or other rules prohibiting various activities that contribute to stormwater pollution. Breaking these rules can result in fines or other penalties.

## Limit Your Use of Fertilizers & Pesticides

- Do a soil test to see if you need a fertilizer.
- Do not apply fertilizer if heavy rain is predicted.
- Look into alternatives for pesticides.
- Maintain a small lawn and keep the rest of your property or yard in a natural state with trees and other native vegetation that requires little or no fertilizer.
- If you use fertilizers and pesticides, follow the instructions on the label on how to correctly apply it. Make sure you properly store or discard any unused portions.

## Properly Use & Dispose of Hazardous Products

- Hazardous products include some household or commercial cleaning products, lawn and garden care products, motor oil, antifreeze, and paints.
- Do not pour any hazardous products down a storm drain because storm drains are usually connected to local waterbodies and the water is not treated.
- If you have hazardous products in your home or workplace, make sure you store or dispose of them properly. Read the label for guidance.
- Use natural or less toxic alternatives if possible.
- Contact your municipality, county, or facility management office for the locations of hazardous-waste disposal facilities.

# solutions to **STORMWATER POLLUTION**

## Don't Litter

- Place litter in trash receptacles.
- Recycle. Recycle. Recycle.
- Participate in community cleanups.

## Keep Pollution Out of Storm Drains

- Municipalities and many other public agencies are required to mark certain storm drain inlets with messages reminding people that storm drains are connected to local waterbodies.
- Do not let sewage or other wastes flow into a stormwater system.

## Don't Feed Wildlife

- Do not feed wildlife, such as ducks and geese, in public areas.
- Many municipalities and other public agencies must enact and enforce a rule that prohibits wildlife feeding in these areas.

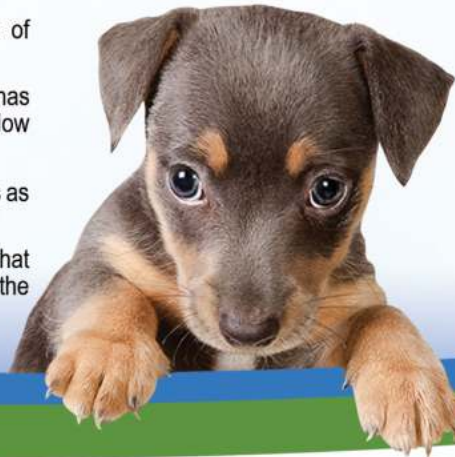

## Dispose of Yard Waste Properly

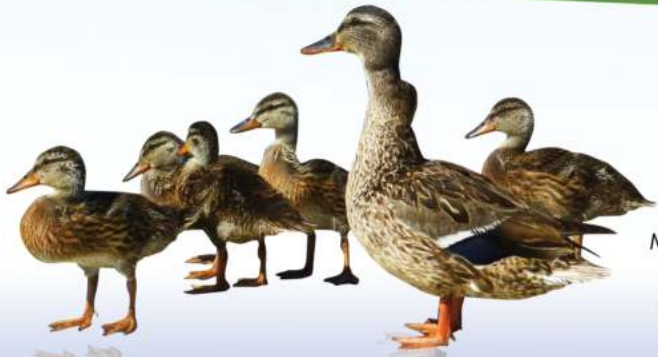

- Keep leaves and grass out of storm drains.
- If your municipality or agency has yard waste collection rules, follow them.
- Use leaves and grass clippings as a resource for compost.
- Use a mulching mower that recycles grass clippings into the lawn.

## Clean Up After Your Pet

- Many municipalities and public agencies must enact and enforce local pet-waste rules.
- An example is requiring pet owners or their keepers to pick up and properly dispose of pet waste dropped on public or other people's property.
- Make sure you know your town's or agency's requirements and comply with them. It's the law. And remember to:

- Use newspaper, bags, or pooper-scoopers to pick up wastes.
- Dispose of the wrapped pet waste in the trash or unwrapped in a toilet.
- Never discard pet waste in a storm drain.
